

Title : Generating Image With AI

Created Login page

Successfully logged in

Account Overview

A screenshot of a web browser window showing the "Account" section of the "Imagine" application. The interface has a dark theme. On the left, a sidebar titled "Account" lists "Profile" and "Security". The main area is titled "Profile details" and shows a profile picture of "Anisha kumari". Below this, it lists "Email addresses" with "anisha77suman1980@gmail.com" marked as Primary. There is a link to "Add email address". Under "Connected accounts", it shows a Google account with the message "This account has been disconnected. Reconnect". The browser's address bar shows "localhost:5173/auth/profile". The taskbar at the bottom shows the date/time "2/2/2026 2:25 PM".

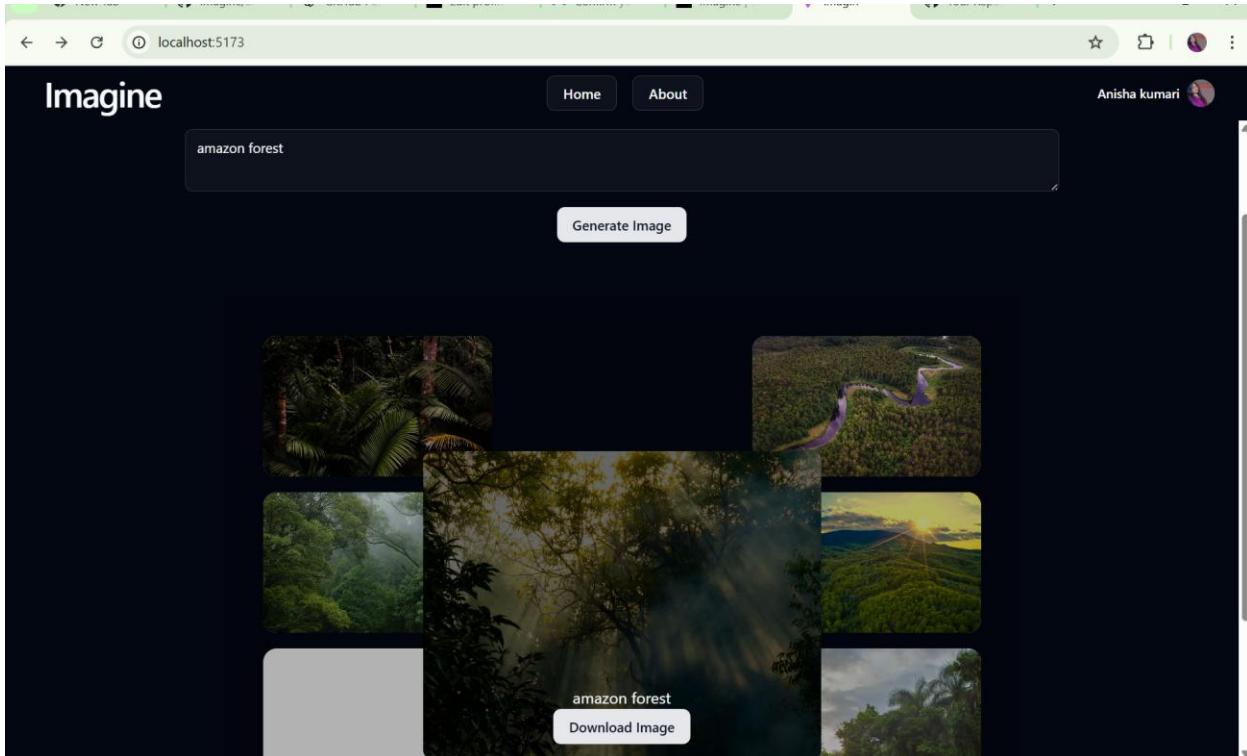

Security Section

The screenshot shows the 'Security' page of the 'Imagine' website. At the top, there's a navigation bar with 'Home' and 'About' buttons. On the right, a user profile for 'Anisha kumari' is visible. The main content area has a dark background. On the left, a sidebar titled 'Account' with the subtitle 'Manage your account info.' contains 'Profile' and 'Security' buttons, where 'Security' is highlighted. The main panel is titled 'Security' and includes sections for 'Password' (with a 'Set password' button) and 'Active devices'. Under 'Active devices', it shows a list with 'Windows' selected, showing 'This device' details: 'Chrome 144.0.0.0', '2409:40d1:100:cabebe:115a:4af3:4a23:4567 (Ludhiana, IN)', and 'Today at 2:24 PM'. There are also 'Delete account' buttons for both sections.

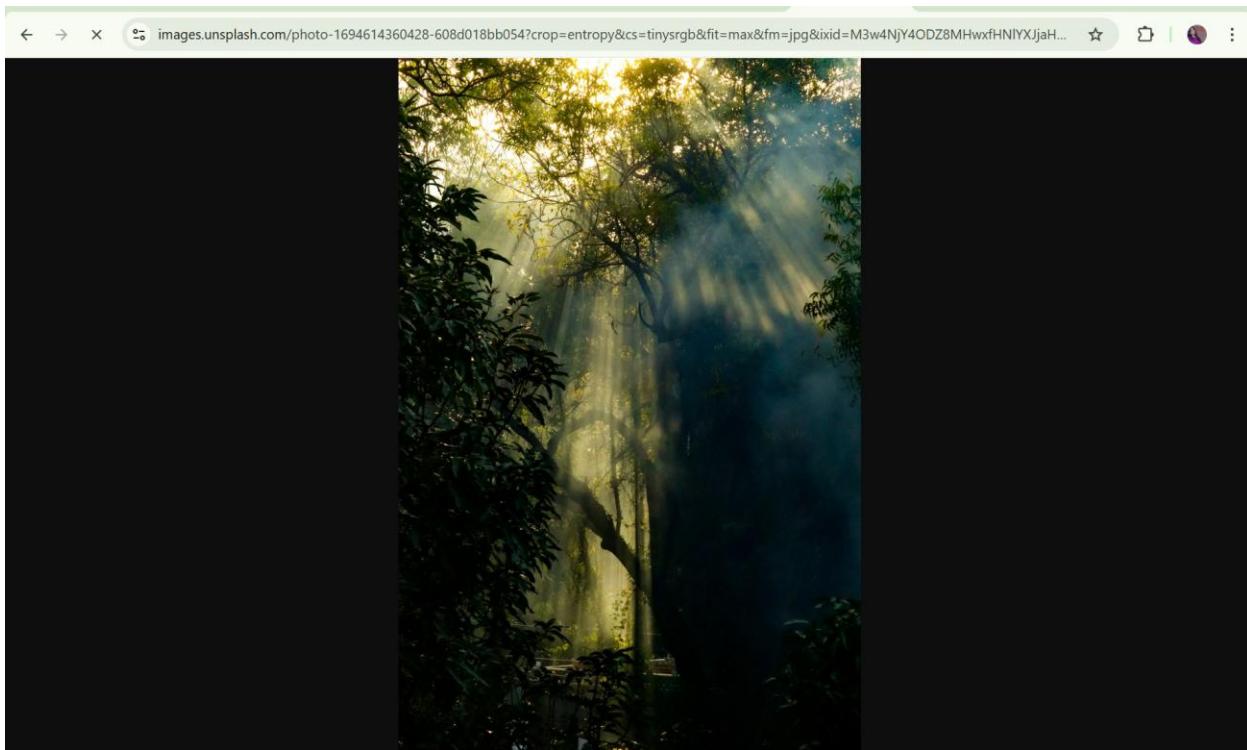

Start using the website

The screenshot shows the 'Generate Image with AI' section of the 'Imagine' website. At the top, there's a navigation bar with 'Home' and 'About' buttons. On the right, a user profile for 'Anisha kumari' is visible. The main content area has a dark background. It features a large heading 'Generate Image with AI' and a sub-instruction 'Generate realistic images using AI technology.'. Below this is a text input field with the placeholder 'Write a prompt to generate image' and a 'Generate Image' button.

As per the prompt it generates the image and also user can download the image .

You can see the user have downloaded and the quality of image is perfect..
